LEGAL's Media Advisory

Friday May 26, 2017. As information on the weeklong convening of Heads of States from ECOWAS attending the ECOWAS Submit 2017 in Liberia being filter in the news, LEGAL as rights based feminist organization advancing human rights advocacy and protection for key population in Liberia, is steadfast in voicing out issues affecting people of sexual orientation and gender identity. LEGAL welcome the convening of the ECOWAS Submit and hope that governments in the Region put into ratification and laws, those international protocols or conventions that they have affixed their signatures to as member states countries and the fulfillment of it.

The issues of equal rights and protection in any society for Lesbians, Bisexuals and Trans-genders and vulnerable women and girls are significant to national development and sustainable peace in Africa. Our people should access those basic rights and protection services without any form of discrimination, injustice, inequality, stigma, killings, abuse, and violence. If equal opportunity is given, it leads to sustainable development, peace and security in Africa. Insecurity for key population and other vulnerable women and girls is rampant in Africa and other parts of the world which makes it a challenge for these people to access those basic holistic rights and protection services, body autonomy, participation in political, social, decision, freedom, social justice, health, education, scientific development, equal opportunity, safe space and social empowerment opportunity for SOGI people in Africa. Insecurity and killings are being muted against SOGI people and other vulnerable women and girls in Africa.

Liberation is freedom, togetherness, change of policy, equal opportunity, equal participation and equal rights and protection.
